Summary

Recent software engineering graduate specializing in data science, skilled in full-stack development, with a strong ability to learn quickly, adapt to new technologies, and contribute to team efforts. Eager to leverage acquired skills in data science and software engineering for professional growth and development.

Education

2019-2023: B.Sc. in Software Engineering (Data Science major) at SCE Shamoon College of Engineering.

Skills

Python, TypeScript, CSS, React, Node, Linux, Git.

Project Experience

- **Business Web Application:** Developed a React web application incorporating an AI tool to enhance business functionality. Leveraged Google Cloud Platform services for various aspects of the project and implemented a CI/CD pipeline to ensure efficient updates and maintenance.
- **Global Cost of Living Analysis:** Utilized Python for data analysis, EDA, and insights on worldwide living costs. Key skills: data preprocessing, visualizations, classification, and statistics.

Work Experience

2020-Present: Manager, Food Industry.

2015-2020: Shift Supervisor, Security Company.

Military service

2012-2015: Combat Medic, National Guard (Mishmar Hagvul), Jerusalem.

Volunteering

2020-2023: Volunteer work in 'Friends in old age' community. Assist elderly individuals by walking their dogs and providing essential support for their daily needs.

Languages

- Hebrew- Native.
- English- Fluent.
